AUTONOMOUS VOICE TELEPHONY & IN-CALL COMMERCE PLATFORM

The voice assistant that actually runs your business.

Answer every incoming call 24/7 in natural Hindi, English, and Hinglish. Greet repeat customers by name, manage live appointments, issue branded GST invoices on WhatsApp, and collect UPI payments — all while on the call.

24/7 CUSTOMER CALLS

ZERO MISSED LEADS

Speaks like an experienced member of your staff. Recognizes returning callers, checks past appointment history, answers questions accurately, and filters noisy background chatter.

SPEAK TO UPDATE BRAIN

ZERO TECHNICAL CODING

Update schedules, doctor availability, product inventory, or special festival discounts anytime by simply typing or speaking into your business dashboard. Takes effect instantly.

IN-CALL WHATSAPP INVOICING

DIRECT UPI QR

The moment a caller books a service or confirms an order, a professional GST tax invoice with dynamic UPI QR code is delivered straight to their WhatsApp before the call ends.

RECEIPT SCREENSHOT CHECK

12-DIGIT UTR MATCH

When customers pay and submit screenshots on WhatsApp, the system automatically checks the transaction reference, reconciles your billing ledger, and confirms the booking.
