PLATFORM OVERVIEW

The Creation of Voice

Vaakriti is a zero-code, multilingual AI voice agent platform that enables businesses to automate customer conversations, operations, and transactions over phone, WhatsApp, and web — just like a human executive.

Answer & Engage

Handle customer calls 24/7 with natural, human-like conversations. Understand colloquial terms, customer intent, and handle interruptions gracefully.

Qualify & Book

Capture leads, verify caller requirements, check real-time availability, and confirm appointments on the fly without calendar conflicts.

Transact on Call

Generate GST-compliant tax invoices and collect direct payments via UPI QR codes sent to WhatsApp during the active phone conversation.

Track & Grow

Access complete call recordings, live transcripts, detailed lead summaries, and conversion analytics directly in your business dashboard.
