VAAKRITI

4-Day Production Go-Live

Rapid, zero-friction enterprise deployment lifecycle executed by dedicated solutions architects.

DAY 01

Knowledge Ingestion

Catalog import, consultation schedules, clinic services, GST details, and corporate brand tone definition.

DAY 02

Telephony Interconnect

SIP trunk provisioning, virtual business numbers, carrier porting, and WhatsApp Business API integration.

DAY 03

Payment & Smoke Tests

UPI gateway binding, live test transactions, receipt OCR verification, and simulated carrier network calls.

DAY 04

Production Go-Live

Live traffic cutover, operational dashboard access for staff, and 24/7 dedicated telemetry monitoring.

ENTERPRISE SERVICE LEVEL COMMITMENTS

99.9% Telephony Uptime
Carrier redundancy across primary Airtel and secondary Jio SIP backbones.

< 15 Min Critical Incident Response
Direct access to dedicated Tier-3 voice infrastructure engineering team.

Continuous Brain Updates
Unrestricted operational updates via dashboard or spoken voice interface.
