Enterprise System Topology

Vaakriti unifies carrier telephony, conversational intelligence, dynamic enterprise catalog retrieval, and digital payment infrastructure into an integrated, zero-loss transaction engine.

END-TO-END AUTONOMOUS TRANSACTION FLOW

CORE PLATFORM SUBSYSTEMS

SUBSYSTEM	OPERATIONAL SCOPE	DELIVERY GUARANTEE
Voice Runtime Engine	Full duplex acoustic processing, intelligent interruption handling, sub-100ms end-to-end turnaround.	Zero artificial pauses, conversational cadence
Dynamic Knowledge Store	Real-time synchronization of medical appointment slots, retail SKU inventories, and pricing tables.	Instant write/read propagation (<500ms)
In-Call Invoicing Gateway	Dynamic PDF generation with SAC/HSN codes, verified GST calculations, and WhatsApp delivery during the call.	100% compliant tax documentation
Warm Telephony Failover	Dual-SIM call forward loop interception, automated VIP caller routing, and 20s spoken reassurance intervals.	Anti-voicemail loop prevention
Vision OCR Reconciler	Automated extraction of 12-digit bank UTR numbers and receipt verification from GPay, PhonePe, and Paytm.	Zero manual screenshot checking
